**To Whom It May Concern**

This is to confirm that we KBAS have used the services of QS Quest Ltd to identify professional multi-national candidates for our various projects since June 2009.

They have successfully identified suitable candidates that have played a key role within the projects that we have, and during this time we have always found QS Quest have been professional and responsible.

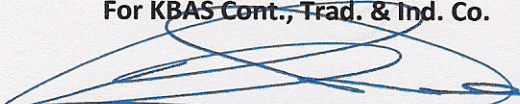

They have understood our needs and budgets and delivered on both.

I have no hesitation in recommending them to other potential companies within the Construction/Engineering Sector.

Yours faithfully,

For KBAS Cont., Trad. & Ind. Co.
